Foreign trade.....	461	three to seven.....	335	Where mine taxation differs.....	526
Foreign trade and domestic industry	201	Poindexter anti-strike bill.....	2	Why optimism?.....	46
Freight rates and wages.....	81	Points of contact with Mr. Peabody.	460	Why persecute the coal industry..	202
Future Federal taxation.....	82	Points of difference with Mr. Pea-		Weight of the industry.....	528
Future price levels.....	49	body.....	462	World's monetary gold surplus....	84
Getting closer together.....	525	Prepare to go to Chicago.....	125	World peace would help copper.....	81
Gold and foreign exchange.....	251	President's message.....	166	Years.....	335
Gold conference.....	370	Price of coal.....	336		
Gold imports and production declin-					
ing.....	299				

METALS, ORES, ETC.

Accidents in metal mines.....	533	Census Bureau statistical report on		Gold and silver production, imports	
Accident statistics, 1920.....	533	mining industries.....	516	and exports.....	68
Alaska's great mineral wealth to be		Census report of mine, quarry and		Gold company will quit unless Mc-	
developed.....	316	well operations in 1919.....	317	Fadden bill is passed.....	540
Alaska mineral output, 1920.....	316	Chromite in 1918 and 1919.....	94	Graphite in 1920.....	154
Aluminum in 1920.....	154	Colorado feldspar-mica fields to be		Gypsum deposits.....	183
Anaconda has low accident rate....	315	developed.....	105	Heavy lead demand during next de-	
Antimony in 1920.....	289	Copper export association—F. H.		cade foreseen—S. M. Evans.....	400
Asbestos explorations in the West..	55	Brownell.....	401	Injury rate in lead, zinc and fluor-	
Australian gold output declines....	231	Copper summary for world, 1920....	314	spar industries.....	532
Barytes producers urge tariff.....	63	Drop in year's copper output.....	64	Investigation by Bureau of Mines	
Brass, bronze and copper in 1919..	267	Five-metal output in 1920.....	313	212, 550.....	
Bureau of Mines investigations.....	444	Five-metal production of four west-		Iron industry in 1920.....	442
Can metal mining again rank first		ern states.....	266	Iron mine accident rate shows de-	
in Colorado?.....	54	Gold and silver imports and exports	109	crease.....	442
Canada's mineral production largest		Gold and silver, imports and exports	319	Iron ore—Dwight E. Woodbridge,	
on record.....	192	Gold and silver movements.....	13	E. M.....	388

Lead and zinc pigments, 1919-1920.....	314	Nome gold fields.....	192	Sodium.....	58
Lead and zinc problems to be studied.....	199	Northwest Arizona gold activity.....	235	Some problems for copper and Brass	
Lead and zinc production shows heavy increases.....	64	Our vanishing gold production—By H. N. Lawrie.....	530	—Walter Douglas.....	385
Lime production in 1920.....	105	Polish market for U. S. copper.....	174	Testing purity of gold by new method.....	554
Lithium minerals, 1920.....	291	Principal features of copper industry, 1907-1920.....	315	Timber preservation in mines.....	517
Manganese—Charles W. Potts.....	391	Production drop for gold and silver.....	517	Tri-state chapter begins new zinc investigations.....	224
Magnesite in 1919.....	154	Prosperous year for iron ore.....	61	Tungsten industry—Nelson Franklin.....	395
Magnesite in 1920.....	192	Quicksilver production declines.....	64	Tungsten in 1918.....	192
Magnesite has satisfactory year.....	67	Radium production led by U. S.....	272	World mineral situation reviewed in commerce department advices.....	227
Magnesite output greater.....	358	Rarer minerals—Frank L. Hess.....	415	Year's five-metal output of Rocky Mountain states resumed.....	52
Metal products add greatly to nation's prosperity.....	293	Rolla experiment station completes flourspar investigation.....	221	Zinc exports.....	227
Mica in 1919.....	183	Salt, bromine and calcium chloride in 1919.....	192	Zinc, first half of 1921.....	358
Mid-year metal mining conditions.....	311	Secondary metals recovered in 1920.....	305	Zinc production, 1917-1920.....	136
Mine fatalities decrease.....	59	Silver output speeded by mints.....	354	Zinc roofing situation—Edgar Z. Wallower.....	398
Mine output valued at nearly seven billion dollars.....	327	Situation of gold mining—By F. Albert Morrison.....	263		
Mint output 1921.....	314				

COAL

Alaska coal regulations.....	183	Export committee—Dr. Henry Mace Payne.....	428	Production and distribution of coal.....	318
Alaska lignite.....	358	Export committee report.....	271	Production shows reaction to feverish demand.....	513
Alaskan coal not delivered.....	60	Export recommendations.....	473	Railroad fuel costs increase.....	184
American wholesale coal association convention.....	180	Fatalities in coal mines.....	262	Retail coal price reports.....	238
Anthracite in October.....	535	Fuel famine impossible for U. S. sea fighters.....	22	Rough sailing encountered by coal regulation bills.....	269
Anthracite facts and problems—By Edward W. Parker.....	537	Full coal bin is good insurance policy.....	230	Safety for coal miners.....	144
Anthracite shipments.....	352	Futility of government regulation shown by Peabody.....	469	San Juan county, N. M., coal deposits.....	238
Anthracite shipments cut by strikes.....	26	Government yard's account O. K.....	318	Schwab discusses coal business and government regulation.....	475
Anthracite shipments during March.....	180	Government used inferior coal.....	89	Stock survey by commerce department.....	546
Anthracite shortage not expected.....	231	Investigations promise economies to coal industry.....	517	Storage problems.....	535
Anthracite wages highest.....	39	Iowa coals analysis.....	238	Strike may follow decision on check-off injunction.....	536
Argentina coal situation.....	229	Japanes coal mine magnate visits in Washington.....	199	Stronger labor adjustment law urged by Secretary Davis.....	199
Asiatic coal imported.....	352	Lignite report submitted.....	271	Survey takes stock of coal supply.....	166
August bituminous production drops.....	434	Lignite's ability to supplant coal in northwestern states.....	180	Tidewater coal exchange organized.....	88
Bituminous mining represents investment of nearly two billion dollars.....	352	Loss prevention discussed by Mines Bureau engineer.....	230	Tidewater coal exportations to be classified.....	151
Bain, Dr., talks on Harding's letter to Mining Congress.....	536	Lower coal rates hope apparently lost.....	270	Trade commission makes final coal cost report.....	88
Bradley, J. G., heads National Coal Association.....	229	Mining problems discussed by leading operators.....	468	U. S. coal bills go unpaid.....	59
Carnegie Tech investigates coal problems.....	362	More work and more taxes for anthracite miners.....	231	Utilities silent on Hoover's plea.....	319
Ceramic studies to bring fuel economies.....	354	National Coal Association in annual convention.....	180	Wadleigh heads coal section and fuel purchasing committee.....	531
Coal association officers resist extradition.....	180	Navy criticized for failure to develop Alaskan coal.....	88	Wage arbitration sought.....	509
Coal leads as power producer.....	231	Navy fuel consumption.....	89	West Virginia coal field troubles investigated by Senate.....	301
Coal leasing administration.....	291	Navy fuel saving reported.....	23	Wholesale coal secretary proud of his associates.....	229
Coal leasing amendment.....	457	No cloture on coal—By George H. Cushing.....	508	Why operators made wage cut.....	139
Coal prosecutions ended.....	150	Offer of coal men rejected.....	319	Williamson field operators refuse to deal with union.....	441
Coal regulation fight expected to be renewed in next Congress.....	87	Output increases of anthracite and bituminous.....	59	World's coal and oil stake at armament conference.....	546
Coal reserve immense.....	166	Pennsylvania tax on anthracite protested.....	271	World coal market conditions summarized.....	106
Coke-oven accidents in 1920.....	262	Process fuel studies.....	536	World's coal production in 1920.....	179
Conservation urged in coal mining.....	513				
Cost of fuel in making brick.....	272				
Early coal buying and its origin.....	230				
Expert joins bureau of mines coal staff.....	270				
Export coal problems.....	472				

OIL

American oil concerns in Costa Rica have troubles.....	226	Equal rights for Americans in world oil fields.....	66	Naval reserves transferred to Interior Department.....	272
Applications for prospecting permits 77, 232.....		Extensive survey of Oklahoma oil field.....	238	New California oil field possible.....	319
Arkansas "arrives" as petroleum producer.....	353	Fall asks funds for oil shale program.....	233	Oil and gas permits.....	114, 185, 290, 552
Bad year for prophets and profits in the oil business—Robt. S. Ellison.....	403	February refinery statistics.....	166	Oil and gas regulations in revised compilation.....	517
California oil strike settled.....	552	Gasoline accumulation arrested.....	353	Oil industry can continue to meet all demands made upon it—H. G. James.....	405
Census petroleum figures for 1919.....	273	Gasoline quality higher.....	353	Oil man becomes second assistant postmaster general.....	174
Changes made in oil and gas leasing regulations.....	233	Government income from oil leases.....	77	Oil royalties computing methods.....	108
Colombia's discriminatory laws have been nullified.....	169	Great expansion in all lines of oil and gas business.....	353	Origin of petroleum no longer a mystery.....	275
Commission on oil dispute.....	199	Impounded oil funds decision.....	499	Petroleum experiment station's program to be enlarged.....	322
Committee on oil standards on permanent basis.....	143	July petroleum statistics.....	438	Petroleum experiment station's work commended.....	149
Computing oil royalties.....	360	Lack of oil gaugers hurts lessees and Government.....	104	Petroleum prospects in South and Central America.....	225
Doheny denies salt water menaces Mexican oil supply.....	234	Memphis gasoline disaster teaches lessons.....	108		
		"Mountains of shale not on easy street.....	108		
		Naval reserves transferred.....	234		

Petroleum statistics for first half of 1921.....	358	Sale of oil lands authorized by Interior Department.....	199	Shale work extended.....	540
Producing oil wells in United States	67	Shale—A potential world-wide industry—Dr. Victor C. Alderson...	406	Surveys of oil and coal.....	178
Production and consumption, first Quarter, 1921.....	232	Shale industry in 1920.....	65	War department oil purchases.....	150
Recognition for oil shale division...	139	Shale men's association elects.....	66	World oil crisis as viewed in connection with Colombian treaty.....	167
Refinery statistics for first nine months.....	545	Shale operations.....	552	Wyoming leads Rocky Mountain states in output of oil.....	67
Refinery statistics for 1920—analysis of year's oil activities.....	148	Shale resources constitute potential reserve.....	457	Wyoming royalties to be paid in oil.....	149
		Shale resources constitute tremendous reserve.....	354		
TARIFF					
British steel makers appear before Senate committee.....	414	Interim tariff protection provided by Longworth resolution.....	221	Mineral provisions of Fordney Tariff bill analyzed.....	306
Extra session gives tariff right of way.....	151	Joplin shows need of tariff.....	171	Tariff, when?.....	463
Gooding on tariff.....	221	Legislation may require several months.....	171	The tariff fight—Herbert Wilson Smith.....	429
Growing industry needs tariff protection.....	238	Mineral industries seek tariff protection.....	99	U. S. valuation plan advantages.....	308
				Utah chapter wants quick tariff action.....	176
TAX					
Additional tax assessments—What they are and how to meet them—By McK. W. Kriegh.....	342	General sales tax—It's disadvantages outweigh its virtues—H. B. Fernald.....	210	Settlement of pending cases first task of income tax unit—By McK. W. Kriegh.....	309
Arizona chapter devotes meeting to tax problems.....	544	Income tax unit head resigns.....	98	State taxation of mines is convention topic.....	384
Bureau of Internal Revenue goes into high speed.....	257	Metals pay largest proportion of U. S. income taxes.....	103	Tax division announcement.....	256
Close-up of men who handle Federal tax returns.....	95	Methods and problems of Federation taxation of the mining industry..	11	Tax exempt securities problems.....	333
Congress in extraordinary session to revise tax laws—By Robert G. Wilson.....	133	National mine tax conference.....	479	Tax revision legislation.....	331
Federal war tax settlement board an urgent necessity.....	15	Problems of Congress in the revision of the revenue laws—by Congressman James A. Frear.....	129	Taxation problems of the mining industry—McK. W. Kriegh.....	431
General sales tax inevitable—Why not now?—Senator Reed Smoot..	207	Revenue bill of 1921 analyzed.....	355	Valuation terms as applied in the mining industry—By William H. Kobbe.....	541
		Settlement of Federal taxes for past years.....	56	Wilson urges Congress to quit juggling taxes and reduce the burden	213
GENERAL					
Accident statistics improvements are aim.....	344	Bulkeley Wells heads Colorado metal mining board.....	223	Denver convention's aftermath.....	25
Advertising Western mine resources	238	Bureau of Engineering, coal and oil dealings.....	23	Department of Mines, need explained by Senator Nicholson.....	500
Alabama mine rescue meet.....	317	Bureau of Mines effects saving.....	357	Detective agency charged with promoting labor strife.....	103
Alaska mining experiment station's activities.....	183	Bureau of Mines field changes.....	289	J. C. Dick leaves Revenue Bureau..	98
Alaska profits from National Exposition of Mines.....	546	Bureau of Mines field stations (map)	181	Distinguished jurist becomes war minerals chief.....	273
Alaska road program urged as stimulus.....	19	Bureau of Mines future studies outlined.....	434	Divining rods still subjects of faith	275
Alaska to send big exhibit.....	316	Butte's claims for experiment station.....	105	Dye and chemical industry protection—By F. G. Moses.....	543
Alaskan mining conditions.....	534	California chapter.....	264	Edwin Ludlow heads A. I. M. E....	92
R. C. Allen leaves ore association...	128	California chapter—Robert I. Kerr.	439	Eighty entries for international mine rescue meet.....	345
An appreciation and a message.....	11	Canadian miners also suffer from high freights.....	185	Electrification in development of the mining industries.....	499
Annual address of President W. J. Loring.....	477	Chairman Channon, of exposition committee, is optimistic.....	175	Engineers win damage suit.....	293
Appropriations for land office and geological survey appropriations..	143	Chicago, the convention city.....	93	Esch and White confirmed.....	170
Appropriations for mining bureaus not cut.....	387	Chief of Engineers, hydraulic mining report.....	17	Ex-Governor Hooper represents public on railroad labor board....	166
Appropriation increases sought by departments.....	24	Clay production.....	366	Explosives used in record quantity.	237
Approved equipment to carry official seal.....	147	John L. Cochrane succumbs.....	364	Exposition attraction to be shown in other places.....	546
Arizona chapter.....	265	George E. Collins re-elected governor of Colorado chapter.....	55	Fall foresees economies in electrification.....	535
Arizona chapter makes suggestion for saving copper situation.....	139	Colorado mine leader elected to railroad directorate.....	387	Fall gives personal attention to mining bureaus.....	336
Arizona chapter meets in June.....	178	Colorado river development to be considered at meeting.....	545	Financial editor supports gold bill..	141
Arizona directors seek lower freight rates.....	544	Colorado river's power potentialities	446	Foreign and domestic commerce bureau taking shape.....	402
Assessment work period changed..	347	Coloring gems.....	291	Foreign division.....	127
Bain, Dr., appointed director of Bureau of Mines.....	166	Continued private operation of roads calls for economy—By C. H. Farrell.....	321	Foreign division of American Mining Congress.....	177
Bartlesville station gets new head..	50	Convention of the mining industry.	377	Foreign exchange discussed by Mining Congress economist.....	507
Bear River development to benefit mines.....	354	Convention's aftermath.....	553	Foreign exchange stabilization—H. N. Lawrie.....	435
Bedford limestone, 1920.....	289	Convention attendance and interest break all records.....	464	Freight net value basis upheld on ore shipments to Salida.....	445
Scott C. Bone new governor of Alaska.....	234	Convention dates.....	159, 192	Freight reductions in prospect.....	446
Budget estimates.....	62	Convention gains national interest..	137	Geological Survey notes.....	291, 327
Bug's eye view of Washington—By Ira L. Smith.....	274, 1320, 512	Cottrell, Dr., summarizes Bureau of Mines work.....	38	Geological Survey wants a program.	73
Building material shippers seek aid of President.....	215	Council of defense.....	113	Glacier National Park highway....	105
		Daniel's solution of the Navy's oil and coal problems.....	21		

Gold calls on nation for immediate succor	178	Mine safety and first aid yet to make great strides	438	Public opinion.....	74, 117, 156, 187, 247, 285, 363
Gold legislation campaign advances.	90	Mine safety teams preparing for contests	260	Quarry accidents, 1920.....	357
Gold standard	264	Mine safety work success due to co-operation	182	Quarry accidents for seven years..	147
Governor of Alaska foresees early revival of prosperity.....	18	Mine station heads meet at Berkeley	20	Railroad executives answer charges of inefficient management—C. H. Farrell	236
Governor Parker requests aid of Mines Bureau	102	Mineral land withdrawals and restorations	94	Railroads opposed to rate reduction proposals	276
Granite quarrying industry makes big gain	442	Mines Bureau appropriation remains stationary	142	Railroad strike inevitable—By C. H. Farrell	551
Half-billion dollar burden proposed for the mines.....	267	Mines Bureau officials on inspection trip	378	Railroad tangle worries Congress and the country—By C. H. Farrell	152
Harding considers Western man for interior portfolio	6	Mines Bureau works speedily.....	341	Reclamation program urged by West	216
Hard-pressed Arizona operators aid their employees	177	Mines' closing explained.....	185	Reduction mills catalogued.....	545
Harvey, John, new chief clerk of interior department	77	Mines furnish over two-thirds of all railroad tonnage	179	Relief for gold mining industry urged by senatorial presentation of facts	510
Helena commercial club gets behind McFadden bill	221	Mines to receive credit for water shipments	366	Reno experiment station dedicated.	50
Helium plant cuts expenses.....	322	Mining and petroleum digest.....	447	Rescue car itineraries.....	77
Holmes safety association extends activities	146	Mining Congress intervenes in percolating waters suit	222	Rescue standardization committees named	544
Hoover leads engineers	199	Mining Congress proceedings.....	358	Resolutions adopted at convention..	504
Hoover seeks co-operation of Mining Congress	470	Mining experience of new Senators from the West	140	Respirators to supersede handkerchiefs	457
Hope revived in the West, Dr. Holbrook finds	98	Mining exposition carries appeal to Northwest operators	223	Rhodes would stimulate greater interest in non-metals	341
House committees	172	Mining fellowships offered.....	362	Roberts, Col. Warren R., address..	502
House committee on mines and mining has new chairman	14	Mining law revision committee reports new code	234	Safety council co-operates with Mines Bureau	145
House mining chairman makes tour of West	378	Missouri metals to be exhibited....	319	Safety head begins new work.....	199
Idaho Senator appreciates needs of mining industry	51	National exposition of mines and mining equipment	449, 481	Safety meeting committeemen	174
Illiteracy among mine workmen....	128	National foreign trade convention..	228	Salt Lake assay office saved; Deadwood office lost	60
Independent American organic chemical industry needed	499	National research council—Alfred D. Flinn	412	Salt Lake bankers oppose repeal of Pittman act	218
International mine rescue delegates named	300	National standardization conference, 1921	268, 340, 501	Salt Lake to advertise Utah's mine resources	387
Judge Finney chief aid to Secretary Fall	132	Nations, states and mining districts at exposition	338	Sand-lime brick in 1919.....	154
Knight, Jesse, passes away.....	140	Nestler assistant to Secretary Fall.	159	Secondary boycott and sympathetic strike illegal	58
Labor costs greater than freight increases	153	New Mexico chapter	265	Senate committees	170
Labor Department reviews mining and markets	414	New Mexico chapter—Burton Bunch	440	Siberia embargoes metals	231
Labor has its own armed guards....	441	New Mexico chapter elects.....	499	Sierras power license	554
Labor leaders called to discuss legislative matters	61	Sidney Norman asks protection for small promoter	224	Silver situation	348
Laboratory	514	Northwest supports Mining Congress activities	138	Slate quarries accidents, 1920.....	317
Land leasing regulations	300	Oil and metal markets affected by conference results	546	Slate values reach peak.....	291
Leasing act administration—Dr. H. Foster Bain	421	Operators' co-operative committee confers with Hoover.....	529	Smelter research work.....	518
Leasing act enforcement officials announced	143	Patents	36, 78, 121, 160, 200, 250, 294, 330, 365, 458, 555	South's mineral industries seek protection	102
Lime production and sales.....	457	Payne tells how he disposed of war minerals claims	103	Spry makes inspection trip.....	264
Loring President, pleased with Congress convention	542	Pennsylvania mine laws annotated.	154	Spry succeeds Tallman as land office commissioner	132
Loring, President, sees bigger future for California mining	141	Phosphate rock exporters combine.	271	Standardization conference	379
Loring, President, urges united effort Ludlow favors liquidation of labor	86	Phosphate rock in 1919.....	159	Standardization not a bar to progress or invention—By E. D. Knight	539
Lyon sees independent U. S. ceramic industry	94	Pittman act is safe.....	552	State exhibits feature Mining Congress convention	175
McFadden bill has special hearing..	7	Pittman act repeal opposed.....	171	Statement of ownership.....	458
McFadden bill's Western drive led by President Loring	141	Pittman silver purchase act will remain in force	218	Statement of ownership, management, circulation, etc., of Mining Congress Journal.....	160
McFadden explains new gold bill....	220	Plans for correlating mine standardization work	86	Statesmen's mining experience....	443
Madame Curie forgets to press the button	206	Portland cement	554	Strikes entail high costs.....	237
Marble quarry accidents.....	317	Portland cement first half of 1921..	317	Superpower survey's work to date..	150
Mellon asked by Senators to act in behalf of gold mining.....	437	Portland cement production.....	364	Survey engineers sued	238
Mellon to determine fate of gold mining industry	219	Portland cement production leaves all records behind	178	Surveyor General offices may be abolished	104
Metallurgical plant accidents decrease	146	Potash in 1920.....	131	Taylor advocates holding unions responsible for their acts	470
Metals prices drop continues.....	151	Pottery business grows.....	329	Texas potash similar to German....	291
Mexican mining situation shows improvement	327	Practical mining topics will be discussed	362	"The American Mining Congress"....	427
Mine accidents decrease	532	President's Alaska visit.....	183	The thread of the fabric: Senator Reed Smoot—By Ira L. Smith....	547
Mine experiment stations to be inspected	154	President Harding may visit Alaska	140	Thinks Solomon is running Bureau of Mines	357
Mine rescue contest record in balance	532	President Harding requests aid of Mining Congress	469	Three-shift system in the iron and steel industry	232
Mine rescue meet tentative program	146	Presidential appointments	143	Transportation	35, 76, 116, 152, 184, 236, 276, 321, 361, 445, 523, 551
		Price report by Federal Trade Commission	174	Trap-rock accidents	366
